

Information for Buyers at State Agencies, Universities, Local Governments and Political Subdivisions in Missouri

What is MissouriBUYS?

MissouriBUYS is a secure, statewide eProcurement system being implemented by the State of Missouri. MissouriBUYS is powered by WebProcure through our partner, Perfect Commerce. When fully implemented, MissouriBUYS will be a user-friendly, one-stop shop for procurements in Missouri. Buyers will be able to announce bid opportunities, obtain quotes or formal bids, and place orders for products and services. MissouriBUYS will include statewide contract online catalogs that buyers will be able to use to purchase products and services electronically in a retail-like shopping experience.

What products and services will be available through MissouriBUYS?

The State of Missouri's statewide contracts will be accessible for use by political subdivisions under the state's Cooperative Procurement Program. A number of these contracts are being converted to online catalogs which will enable easy online ordering of those products and services.

From office supplies to consulting services to vehicles and everything in between, buyers will be able to use MissouriBUYS to electronically purchase the products and services they need. The Division intends to expand its base of statewide contracts to include more high volume spend areas. University, local government and political subdivision buyers are encouraged to contact Purchasing regarding needs for additional statewide contracts.

What benefits will MissouriBUYS provide when fully implemented?

- ✓ Easy access for buyers to view and order from State of Missouri's statewide contract online catalogs in a retail-like shopping experience (place items in cart, checkout).
- ✓ Public, no cost Bid Board that buyers can use to post their solicitations for products and/or services with greater visibility and automatic email notifications to vendors registered in MissouriBUYS.
- ✓ Obtain quotes and formal bids online.
- ✓ Statewide contracts enable use of the state's purchasing power, staffing, and expertise without entities having to invest their own time, personnel and financial resources.
- ✓ User-friendly, one-stop shop for procurements in Missouri.

What will I need to do?

Implementation of MissouriBUYS is occurring in phases. Updates regarding when universities, local governments, and political subdivisions can use MissouriBUYS to make purchases and post their own solicitations, will be posted on MissouriBUYS at <https://MissouriBUYS.mo.gov>.

What can I do now?

If you are not a member of the state's cooperative procurement program, information regarding the program can be found at: <https://oa.mo.gov/purchasing/cooperative-procurement-services>.

For questions about the new eProcurement system, contact the MissouriBUYS project team at:
